

I am shocked at Sinclair Broadcasting's plans to air a 45 minute anti-Democratic commercial the night before the election. It is clear that this wealthy public interest group plans to implement this program quickly before intervention can be put into place, and closely enough to the election that the public will be able to debunk their propaganda before voting. This is amoral and illegal, and MUST be stopped!

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. Do not allow these airwaves to be used for a 45 minute commercial designed to advance the political interests of the company that is airing it.
